

I understand that you are reviewing the Sattelrite Radio issue. I feel I must let you know that I benefit from listening to XM Satelllite Radio and its traffic and weather channels. Satelllite radio provides variety and quality that are not available elsewhere. I pay to recieve these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve. You should concentrate on bigger issues than this, such as shock radio. Sattelrite radio provides a service and people pay to get this service!
